Applicability:	All DVA employees globally
Effective from:	
Responsible Department:	Finance
Author:	Peter Zimmermann
Co- Author:	Julio Zamora
Approved by:	Global CEO
Replaces:	Not applicable
Target Group:	All functions

Travel

Transfer for business reasons to a different place/ country from the place/ country where people usually work.

Introduction

Travels to maintain contact in business matters are necessary and desired by the management when after questioning ourselves about whether other communication paths, such as phone, video and/or web conferences, would be suitable and if the travel is strictly necessary and safe for the employee/ traveller.

This policy aims to be a reference source for the creation of the policies/guidelines for each country where DVA has a subsidiary; determine clear guidelines on the type of expenses that are allowed -for transportation, accommodation and hospitalities-, as well as the procedures for their authorization, verification and reimbursement, promoting a professional, responsible and prudent use of DVA's resources.

Scope of application

This policy applies to all DVA employees who have the prior authorization of their Direct Supervisor to -on behalf of DVA- make a travel by themselves or together with any other business associates.

Direct Supervisors and the travellers are equally responsible for compliance with this travel directive and the limitations to the required scope.

Policy principles

In the event that DVA requires it, all employees are authorized to incur travel expenses as long as the nature of the position or function justifies it. Depending on each country, they must take into account issues that determine the affordability of the travel destination.

The traveller must verify with the corresponding department in their country of employment and (if applicable) in the country of destination, if agreements with airlines and/or hotels are in

place that potentially represent benefits for the company. Bookings shall be made where applicable under such agreements unless the traveller chooses more economic, but equally safe options.

Local travel (within the same country) personal expense limits for food must be published for knowledge of all employees who make business travels and is applicable for each country. In case the traveller exceeds the established limits, the resulting differences will not be reimbursable.

The responsible department of each country must annually review the maximum amounts authorized for travel expenses and the minimum amount to require an invoice in the case of food and transportation, based on the expenditure executed in the previous year and these must be aligned with Human Resources and validated by the Managing Director and the Global CFO.

The selection of a travel agency (where applicable) must follow the Vendor Selection Directive and shall be re-assessed every 3 years.

The purchase of transportation tickets and accommodation reservations will be made by the travel agency or department authorized by DVA for each country, to whom this policy should be shared for implementation.

Every business travel must have an agenda pre-approved by the General Manager, Managing Director or Global CEO, as applicable. The traveller must plan and coordinate international business travels as early as possible in order to use more economic travel options.

With the exception of trade fair visits, specific projects and training exercises, business travels by more than one employee for the same reason must be previously approved by the Managing Director.

In order to avoid additional costs for booking changes and cancellations, a business travel must be booked:

- 1.- The earliest possible, once it is certain that it will take place and
- 2.- With weighing the economic assessment of whether to choose a cancellable ticket with cancellation fee, a fully flexible ticket, or – only in case of a large difference – a low-cost non-cancellable ticket.

To ensure there are no conflicting interests by the traveller, taking along any companions for personal reasons or to make private trips in connection with the business travels is not encouraged. Any exceptions require prior written approval by the Managing Director and Human Resources. In such an exception, only the expenses caused by the business reason will be reimbursed.

In the absence of a business credit card, the advance must be predefined and agreed with the Finance team. Expenses must be verified based on the supporting documents for every expense.

Guidelines:**1. Transportation****1.1 Road transportation**

Transportation from one city to another in the same Country is allowed by the following means:

- Bus or train: For transfers from one city to another the traveller must use a bus or train looking for maximum savings. Bus and/or train ticket expenses are reimbursable with appropriate receipts.
- Company car: Gasoline, parking and toll expenses are reimbursable upon presentation of corresponding receipts.
- Private car: In the event that the traveller does not have access to a company car, a private car may be used after previous authorization. Mileage charges and parking will be refundable. The company is exempt from reimbursement of expenses for car wash and the deductible of any accident.
- Car rental: When car rental is required, authorization must be obtained from the Direct Supervisor.
- Taxi: The use of a taxi is allowed to travel distances of less than 50 km.

1.2 Plane tickets

In the case of national and international flights, travels must be made in tourist/economy class, adjusting to the guidelines of this policy. The prerequisites for approval for a higher booking class are budget availability, flight durations of more than 5 hours per travel section (without layover) and that the traveller has one of the following positions: General Manager or Global Head (previous written approval by the Managing Director) or Managing Director (previous written approval by the Global CEO).

Any deviation to the lowest price must have a description as to why the same was chosen.

2. Accommodation

Accommodation shall be chosen based on economic discretion, in coordination with the Direct Supervisor. In order to avoid travelling expenses on site, the place to stay must be chosen near the work site.

Stays during weekends must comply with the following:

- 1.- The work to be carried out requires it and is fully justifiable.
- 2.- Previous written approval by the Direct Supervisor.

3. Hospitality / Business meal invitations

Hospitality is permitted for business-related reasons. The financial effort must be kept within an appropriate scope.

Whenever possible, food consumption shall be invoiced to the company employer of the traveller.

4. Travel to affiliates of DVA

If an employee's local presence has been specifically requested by another DVA affiliate, all related travel expenses are to be covered by the requesting company. In all other cases, these expenses are to be covered by the traveller's direct employer company.

Any travel expenses other than those incurred for transportation, accommodation and meals, such as conference fees or work event entrance tickets, require prior approval by the Direct Supervisor and will be reimbursed by the company in accordance with the company's travel and expense policy.

5. Approval

Any planning and execution of business travel requires the written approval of the Direct Supervisor of the traveller by e-mail. The request must indicate the reason of the travel, dates and destinations as well as an expense estimation.

6. Visas, health, country information and safety

The traveller shall be responsible for learning about any entry requirements, health provisions, the political situation and any further risks of the respective destination country.

DVA will refund the necessary expenses for the traveller to comply with the requirements to make the business travel, however, the expenses for the omission to comply with any requirement to enter another country will be attributable to the traveller.

For example, according to EU secondment law, A1 certifications or secondment certifications must be carried for any travel within Europe. These serve as evidence of social security coverage by the employer and not carrying these certificates may lead to a high fine in case of inspection.

7. Travel reports

A travel report should be drawn up for each business travel and submitted to the Direct Supervisor and Finance, no later than on the tenth working day after the return.

The report shall contain all relevant key data and activities, as well as any business contacts including the following information:

- Company name
- Name of the person
- Job title
- Phone number
- Mobile phone number
- E-Mail

The report is to be chronologically structured and comprehensible to third parties. The form of submission is subject to each country's discretion and reimbursements should be made to the traveller no later than 10 working days after the corresponding formal request.

8. Cancellation of business travels

Any business travel which cannot take place must be cancelled without delay to avoid no show-fees. In case of negligence, the employee will bear full costs related to the travel.

9. Non-refundable expenses

DVA is exempt from reimbursing the following additional expenses:

- Acquisition of plane tickets, accommodation or hospitalities outside the guidelines of this policy.
- Change of flight (except in justified cases and with written authorization by the Direct Supervisor).
- Cancellation of plane ticket (except in justified cases and with written authorization by the Direct Supervisor).
- Excess luggage (except in justified cases and with written authorization by the Direct Supervisor).

10. Exceptions

Any exceptions to this policy must be approved in advance by the employee's Direct Supervisor or the appropriate department head.

DO	DON'T
✓ Always comply with local laws and regulations when traveling. ✓ Ensure that your travel documents are valid and up-to-date before embarking on any travel. ✓ Take appropriate measures to safeguard your personal and work-related belongings while traveling. ✓ Keep your Direct Supervisor and/or Human Resources department informed of your travel plans and whereabouts at all times. ✓ Follow this policy, local customs and laws, and respect cultural differences.	✗ Engage in any illegal or unethical behavior while traveling on business. ✗ Travel to any destinations that are deemed unsafe or prohibited by the company. ✗ Use company funds or resources for personal travel expenses. ✗ Disclose any confidential company information while traveling. ✗ Engage in any behavior that could harm the company's reputation or business relationships. ✗ Make unnecessary risks, and always consider the potential consequences of your actions before taking any decisions.

Every General Manager, in conjunction with the corresponding Managing Director, reserves the right to decide on the measures to be taken for any non-compliance with this directive, in alignment with the Global CEO, Compliance, and Human Resources. Written proof of such measures must be added to the relevant employee's file.
